

# Mayura Jampasri

Website Developer junior

I have a interest in technology field and software development. I enjoy learning and practicing new techniques. During my internship at a Tech consulting firm, I was assigned to develop feature used by the company. Experience in internship I had the opportunity to learn and work with new tech stacks . I was able to study and adapt code from other member code to complete an assigned task on time, despite having no experience with the programming language.

Finally, I am ready to learn , grow up and continuously improve my addressing my weaknesses and developing new skills.
